

Remediation Solutions

2BH

Regenerative Vacuum Blower

- General SVE usage
- Contact-less compression
- Oil-less operation
- Maintenance free

VLR

Oil-free Claw Vacuum Pumps

- Highest CFM ratings per connected BHP
- Contact-less compression
- Quieter than other technologies/brands
- Oil-free operation with no added effluent to vapor stream

DLR

Oil-free Claw Compressors

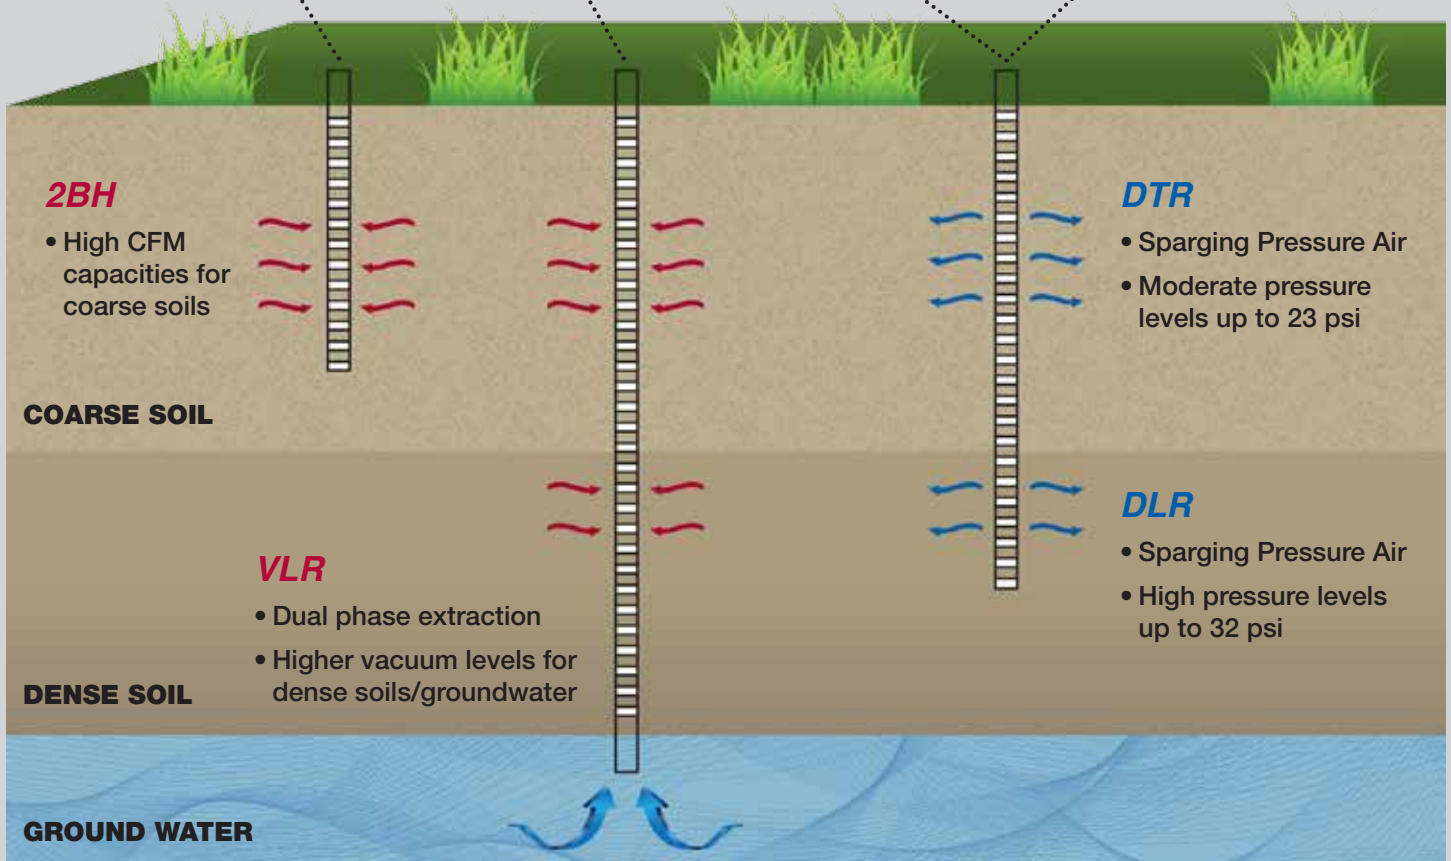

- Contact-less compression
- Virtually maintenance free
- Oil-free operation with no additional effluents

DTR

Oil-less Rotary Vane Compressors

- Oil-less compression with no added effluent
- Low maintenance
- Quiet operation (78 dBA max.)

2BH

Regenerative Vacuum Blower

- ½ to 45 HP
- Capacities up to 1,550 cfm
- Vacuum to 16" Hg
- Pressure to 14 psi

VLR

Oil-free Claw Vacuum Pumps

- 2 to 30 HP
- Capacities up to 671 cfm
- Vacuum levels to 22–27" Hg

DLR

Oil-free Claw Compressors

- 5 to 40 HP
- Capacities up to 353 cfm
- Pressures to 29–32 psi

DTR

Oil-less Rotary Vane Compressors

- 5 to 15 HP
- Capacities up to 79 cfm
- Pressure to 22 psi
